ART UNIT 2173

Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 6, and 7, the closest prior art Bensoussan teaches reporting structure is shown multidimensionally, and data items can be categorized in different ways or along different dimensions. However, Bensoussan does not teach the details such as "displaying a reporting object that displays values selected by one or more axes of the multidimensional data model" and 'displaying a set of reporting objects, each corresponding to a member of the dimension, where the reporting object displays values of measures of the corresponding dimension member including multiple blocks synchronized along a common axis, nested sections, and breaks" in the specific combination as cited in claims 1 and 6. Bensoussan does not teach limitations "creating a report using a first reporting object..." "allowing a user to select a reporting object..." "allowing a user to select a dimension....", and 'displaying a rendition of the report...' the specific combination as cited in claim 7. These limitations defined patentably over prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
